The Evening Paper the Family Paper.

For affording instruction and enjoyment to those who, while burdened with the cares of business, yet wish to keep abreast of the current of modern thought, to be posted on all the political and social movements of the day, to read accounts of the advances made in art and science, what is comparable to the well-filled, broad-gagued evening paper? Where can the treasures of thought, the budges of news, the editorial opinions, find such appropriate place or such appreciative reading?

The morning paper is hurriedly seized by the business man; very likely he takes it off down town with him, reading it on the street cars; or, reflecting how busy the family is in the morning, he has it left at the store. Impatient and hurried to go to business, he glances over the telegrams and market reports; he hastly scans the local columns to see if any startling accident has occurred; he looks over the editorial page, and if the title of any editorial article strikes his attention, and it is short, he reads it over hurriedly to see if the views expressed are in accordance with his own. If they are, well and good; if they are not, he has not time to consider and weigh arguments, or to note fine, incisive writing. The paper is hurriedly cast aside, for the day's business presses. Evening comes; the day's work is done; dinner waits; wife and children also at leisure are around him; nothing is needed to complete his satisfaction but the well-filled evening paper. Here is the news of the day in full; here are the latest market-reports; here are the cable telegrams informing him of all the great movements of the old world; here are literary notes and art criticisms; and here are able and thoughtful editorials on all subjects of current interest, written by practiced pens. To enjoy this mental feast he has withal leisure; he reads carefully and appreciatively. Who does not at once perceive the immense advantage in the way of securing attentive reading enjoyed by the evening paper.

Further; These are days when woman is close upon the heels of man in every department of knowlege. She, too, is interested in everything going on in the world. The intelligent man, now-adays, expects intelligence and interest in the news of the day on the part of his wife. Daughters as well as sons share the knowledge-seeking spirit, How delightful the home where the conversation relates to something more than mere domestic details and society gossip? To such famly what a source of pleasure and instruction is the evening paper? The news is shared by all, as one, perhaps, reads aloud. The sentiments of the editorials are canvassed, and condemned or approved, as the case may be; the art and literary notes are subjects of conversation; the whole family is instructed, elevated and entertained, as information is imparted, thought stimulated and pleasure, afforded by the good evening paper.

We are living in a wonderful period of time. Changes are going on in the old world that remind us of the prophecy of the ancient sage, that "A nation shall be born in a day." Science is pushing her investigations in every direction, and bringing in her hands rich discoveries that promise eventually to emancipate mankind from the salary of physical toil. The domain of art is being enlarged until her treasurers are the educators of all the children of the land. The activity of modern thought is testing the traditions that have ruled the world for centuries; old things are passing away; all things are becoming new. The editor from his watch-tower notes with steadfast eye the progress of the great panorama of human life, and daily brings his record for the informing and instructing of those whose special pursuits engross their times and thoughts during the working hours of the day. He culls the most striking facts, he rehearses the most important movements, he summerizes the current of thought that is moving the world. He argues for the principles which, in his judgement, should guide the people; he denounces the dishonesties and exposes the fallacies that mislead. For the rich and varied treasure of thought and information which he has gathered, he desires an intelligent, thoughtful and appreciative audience. He finds it more than anywhere else in the world in the hundreds and thousands of families who eagerly look for and carefully read the evening paper.—*St. Louis Post.*

Graphic Description of the Wreck of the Metropolis.

NORFOLK, Feb. 2.—James F. Alcon, temporarily attached to the Metropolis, formerly an officer in the United States Navy and a journalist in Boston, makes the following statement: On Wednesday night at 9 o'clock I was called by the mate to assist the carpenter in stopping a leak around the rudder trunk. I found the stern post loose and so reported. I remained at my post to stop the leak or prevent its increase until morning, when I was called on deck, when I found the ship was a partial wreck. Finding the mate, I suggested sail should be made by setting the foresail, and on getting his consent went aloft, and, assisted by Charles Seaman, set the foresail, which remained but a few minutes until carried away, and it was necessary to clew up the port wing of the sail. Shortly after, the ship struck heavily, amidships, evidently breaking her back, but she continued to drive on the beach. During the trying hours of the day several of the ill-fated passengers, bravely entrusting themselves to the tide, evidently lost heart with the passage of the first breaker over their heads and, abandoning all hope, and without a struggle. Others, either washed or leaping off the wreck, would almost seem to have committed suicide, so deliberately did they seem to bury their heads beneath the waves and meet their doom. The foremast fell aft, and, the foresail being still partially spread, several persons were either killed by its fall or buried beneath tne mass of sail in such a way as made death certain. One young man, particularly conspicuous for his daring during the day, at last sought refuge on the top-sail yard, evidently in the hope that the mast would fall over the bows or side. Of course instant death was the result of his mistake on the fall of the mast. At about 5 o'clock the midship body of hull (the forebody being already gone) began to break up. While I urged all who would listen to me to trust themselves to Providence, the waves and their life preservers, many did so with success. At length the closing scene was upon us. The lower deck beams gave way and the starboard broadside receiving a few more heavy shocks from the surf, the steamer sank slowly beneath the waves." The Captain and officers are highly commended. Quartermaster Poland made three attempts to get a line ashore, and only gave up when the line proved too short; and Timothy O'Brien, on reaching shore himself, returned into the water and rescued some fifty persons as they were dashed toward him by the waves. The scattered dwellers along the coast are given warm praise for their munificent hospitality.

Private Medical Institute.
209, KEARNEY STREET, SAN FRANCISCO.
Established in 1854,
For the Permanent Cure of all Special and Chronic Diseases, as also all Female Complaints and Diseases of the Nervous System.
THE IMMENSE DESTRUCTION OF human life annually from secret and chronic diseases, caused this old and reliable institution to be established, first in Philadelphia, Penn., in 1850, and afterwards in San Francisco, Cal., in 1854, as a private dispensary, in order to afford the afflicted the best medical and surgical treatment for the above and all other affections and complaints. Consultation at the Institute, or by letter, FREE.
To the Afflicted:
Dr. L. J. Czapkay would most respectfully inform the public of the Pacific coast that, at the earnest solicitation of his numerous friends, and hundreds of those unfortunately afflicted with disease, he has reopened his MEDICAL AND SURGICAL INSTITUTE and resumed the practice of his profession. The Doctor would remind all those who are in need of medical aid, that since relinquishing his very extensive and successful practice in San Francisco, he has visited the principal cities in Europe, inspecting diligently the experience of the most learned in the profession, the benefit from which he offers to all in need of his services. Rheumatic affections, chronic catarrh, diseases of the stomach and kidneys, liver complaints, etc., successfully treated. Those who are suffering from the errors and indiscretions of youth, nervous weakness, physical and mental debility, are assured of a permanent cure. Charges moderate. MONDAY.....FEBRUARY 4, 1878.

A. M. & M. Society.

At a Trustee meeting, held Saturday evening at the Depot Hotel, we heard the affairs of the State Agricultural Society discussed at some length, and while the entire subject matter was very interesting, we have space for only one matter which we think should be properly set before the stockholders.

It appears, from the Secretary's report, that the Society owes $11 more than at the annual meeting in '77, and upon inquiring into the matter, we find that even this array of figures is only another proof of the societies strength and success. The debt which has been standing against the society and is secured by mortgage, amounts to $7,838. At the time of the last annual report the interest amounted to $1,083, since which time no interest has been paid. This increase now amounts to $2,053 or and increase of $970 showing that the increase of debt is accurately covered by the increase of interest, and that notwithstanding the scarcity of entries our fair held its own. Let us see now, why we did not do still more. The circuit project was inaugurated last year and the managers of every fair on the coast hastened to adopt it. It was felt that the circuit was just what had long been wanted; every horseman endorsed it and it was to ensure abundant entries throughout its extent from Reno to Los Angeles. Our trustees adopted this view in good faith, and one of their number at most personal trouble expense, secured representation for Reno. Well, the circuit failed, not alone at Reno but every place else. Two agricultural societies have gone to the wall through the failure and every meeting on the coast had good reason to know that something was wrong about the circuit. The mistake had been in closing the entries August 30th, and a scarcity of entries of course obliged the putting up of gate money which would otherwise have been profit. Our own Society was in this way obliged to put up $3,800, which would, in any ordinary case, have been cash on hand. Had our entry list remained open until one week before the Fair, seventy per cent. in entries could have been secured; but, in common with every other society, we endorsed the circuit, and had to abide by its laws. We have this experience to work upon, and it could not have been foreseen in any way. Even with that loss the fair held its own, and money has been raised upon individual securities to pay the pressing indebtedness. There is no like institution on the coast which bears as good a reputation as our young society, and with the unselfish labors of Stevenson, Babcock and their assistants the next fair will equal that in Sacramento in 1878.

Nearly 1,000 Indians have left the Red Cloud Agency and gone north. Gen. Miles is making every preparation to march against Sitting Bull who he believes to be in the United States. There is neglect somewhere. Has his excellency, Dusky Sed, come to the United States without a Peace Commission doing him homage and making the young tauruses and Madame Bull a few presents? If he and his warriors burn a few houses, kill a number of whites and General Miles warmly defeats them in battle, he should be called from the service.

ROLL OF HONOR.—The following is the roll of honor of the department of our public school taught by Miss Frankie Gibbs for the month of January: Jay Harrison 100, Mack Sample 100, Thomas Miller 100, Frank Culliard 100, Helen Sample 100, Walter Johnson 90, Eddie Brannan 90, Andrew Griffin 90, May Knox 95, Charlie Beemer 80, Frank Fowler 80, Willie Gamble 80, Charlie Taubert 80, Carrie Riggen 80, Dovey Aver 85, Mamie Miller 85, Jerome Aver 76, Powell Fredrick 75, Elmer Buncell 75, Eddie Donahue 75, Myra Bowen 70. Total number enrolled 68. Average daily attendance 53.

President Diaz of Mexico, is tall, straight and spare, looks every inch a soldier, and lives in the simplest manner without any Brigadiers-in-waiting.

Ben Wade lies dangerously ill in Jefferson, Ohio.

Congressman Mills, of Texas, reiterates his opinion that the people of the South would not again support Tilden, and he says: "Hendricks is their man, I think, now. Sentiment may change before the convention meets, but Hendricks seems to be the man at present. Thurman would suit them very nearly as well. The Southern people want a man who has got pluck enough to defend his rights, and not a played-out old man like Tilden."

Italy's proposition for a national Congress is well received. Russia has accepted a similar proposition made by Austria, but the place of holding this Conference of the Powers has not yet been determined. Gambetta holds that the treaty of 1856 must not be violated, and if any treaty is made in violation of that of 1856 such treaty must be considered null and void.

NEW MINING CO.—The Santa Fee Mining Co. have filled articles of incorporation in the Clerks office. Location of works Esmeralda county—principal place of business Reno; capital stock $3,000,000; divided into 150,000 shares. Trustees: J. A. Lindsay, J. B. Gamble, T. A. Gamble, James Amoit and S. Duff.

Speaking of the proposed new road between Elko and Tuscarora, the *Times-Review* thinks twelve or fifteen miles of distance can be saved and that the new road will not cost more than $3,000.

A man named Owen Cassidy was badly hurt by a falling rock in the Panther mine, in Cornucopia, last Saturday. The Leopard Company, in the same district, has discharged several miners of late.

The signal service observer at Scracoke Inlet, South Carolina, reports ashore, the bottom up, the brig C. C. Overton, from New York for Nassau, and that the entire crew are supposed to be lost. A hat and other articles picked up showed marks of blood.

Fred Swift, the absconding defaulter of Battle Mountain, sent the key of the safe back from Fort Yuma. He has gone to Arizona, and possibly to Mexico, leaving an estimable wife in Battle Mountain.

The Sultan has accepted the peace conditions imposed by Russia, and his delegates to the Conference have signed the terms. The Russian army will therefore not advance further into Turkish Territory.

Miss Katharine Chase Sprague is living at her father's house of "Edgewood," near Washington, and gives weekly receptions, crowded as of old.

Ralph Waldro Emerson, owing to an untimely cold, has been compelled to postpone for the present his lecture in the old South Church at Boston.

The Silver Bill is being discussed in the Senate to-day.

CARLYLE ON THE LORD'S PRAYER.—Thomas Carlyle, though an inconoceast, is as reverent a man as lives. In a letter written in 1869 to the late Mr. Erskine, he says: "I was agreeably surprised by the sight of your handwriting again, so kind, so welcome! The letters are as firm and honestly distinct as ever—the mind, too, in spite of its frail invironments, as clear, plump-up, calmly expectant as in the best days; right so; so be it with us all till we quit this dim sojourn, now grown so lonely to us, and our change comes. 'Our Father which art in heaven, hallowed be Thy name, Thy will be done;' what else can we say? The other night, in my sleepless tossings about, which were growing more and more miserable, those words, that brief and grand prayer, came strangely into my mind, with an altogether new emphasis, as if written and shining for me in mild, pure splendor on the black bosom of night there; when I, as it were, read them word by word—with a sudden check in my imperfect wonderings, with a sudden softness of composure which was much unexpected. Not for thirty or forty years had I once formally repeated that prayer; nay, I never felt before how intensely the voice of man's soul it is; the inmost aspiration of all that is high and pious in poor human nature; right worthy to be recommended with an 'After this manner pray ye.'"

The inner life of great men is almost unknown to the public, who see and know them only as they appear on parade, as it were. But great men have their homes and affections as well as other men, and love their wives and children, and call them pet names just as common people do. General Sheridan's pet name for his wife is "Buster." In the privacy of the domestic circle, General Grant addresses Mrs. G. as "Hairpin;" Joaquin Miller refers to Minnie Myrtle in language unfit for publication, while Bret Harte calls his "My soul." President Hayes makes curtain observations to "Minnehoohoo," an Indian name signifying too much water. Mark Twain calls her "Your Majesty." The Prince of Wales, when he takes her on his knee and breathes lovingly down her back, whispers "Cucksey Dolly." The Pope—hem! We, ourselves—but never mind.

EXPEDITION AGAINST SITTING BULL.—CHICAGO, Feb. 1st.—A *Times* Bismarck special says: A private telegram from a reliable source on Tongue River Post reports that General Miles is preparing to move against Sitting Bull about the 10th of February. The force consists of eight companies of cavalry, six or eight of infantry, with all the obtainable Crow Indians. Weather is splendid. No snow this Winter. This seems to favor the idea which was believed ridiculous in official circles in Washington and Chicago, that Sitting Bull has really crossed into the United States.

The snow may fall and birth day parties be had, but Cohn & Isaacs have the genuine Hayes' underwear.

WANTED.—One or two young ladies to learn Dressmaking. Apply at Mrs. Emerson's, Opposite Odd Fellows' Hall. 1-14tf

Trustee Meeting.

A M. & M. Society—Organization—Prospects.

Pursuant to call, the Board of Trustees met at the Depot Hotel on Saturday evening. Present—Babcock, Stevenson and Chamberlain. After preliminary conversation upon various topics, the Board proceeded to organize by the election of W. R. Chamberlain President. Mr. Chamberlain made an explanation of his position, accepting the duties, merely to perfect the organization of the Board and get it into working order. Whenever a man could be found who would be acceptable to all concerned, he should claim the privilege of resigning.

The Board having been properly organized, Mr. L. L. Crockett was elected to fill the vacancy caused by the resignation of Geo. Alt, and duly qualified as a Trustee.

The time for holding the next annual fair was set for Monday, October 7th, 1878.

The Secretary's report was discussed, and Mr. Stevenson called attention to the fact that the failure of the circuit was the only reason why the Society did not make $3,800 clear of all expenses, that having been the amount which the Society was compelled to advance out of the late receipts to make the purses good. Such an experience will not be repeated, and we might congratulate ourselves that, although the Reno fair was injured, we stood the shock better than any society on the coast.

The pressing indebtedness of the Society was found to be about $2,400, and the President stated that he had the promise of a loan in that sum at low rate of interest. The President was authorized to negotiate the loan, and the Trustees and friends present agreed to furnish individual securities for the Society's note.

The election of the remaining officers was deferred until some future meeting. On motion the meeting adjourned to meet at call of President.

PYRAMID RIOTERS.—Ben Hill and John Spencer, the parties who committed a partial assault upon the U. S. Marshall and posse near Pyramid Lake, were tried in Wadsworth Saturday before Justice Griswold. District Attorney Cain prosecuted the case. It was found that the bridge destroyed was private property, and the shooting done was merely for the purpose of driving the Marshall from the premises. The parties had no intention of shooting the Marshall. The men were led to the mischief by the poor whisky sold them by Jack Leathers. Eugene looked solemn, counseled with Cain, sounded the financial status of the accused and fined them one dollar and costs, equal in amount to $60. Doc Foley was the principal witness. Leathers will be hauled before the U. S. Grand Jury to-morrow in Carson.

GOOD SHOWING.—The attendance at our public school is increasing. Last term the average attendance was about 275. The past month some 315 scholars have attended the public school. Nor is this all; quite a number of the children who formerly attended the public school are now pupils at the new Catholic school. Sixty young ladies attend the Episcopal Seminary, of which number more than one-third reside in Reno. Prosperous school, prosperous town.

WOOD ALONG THE V. & T. R. R.—From Conductor Havenor we learn that the V. & T. R. R. took some 10,700 cords of wood from Huffaker's Station during the past month. There is now only about 5,000 cords left at the lower dump, and it will be shipped this month. At Brown's Station there is about 15,000 cords, at Washoe about 10,000 and at Mills' Station about 5,000.

BULLION.—Sunday night 87 bars of bullion were shipped to San Francisco from the bonanza mines. Total valuation, $355,699 34. Total shipments since January 12th: California, $1,882,023 46; Con. Virginia, $1,173,403 76. From this it will be seen that the regular two dollar dividend of each of these mines will be declared this month.

A crying child in church will draw more attention in one minute than a whole church choir in fifteen, and will awaken feelings in a mothers breast which an orthodox minister cannot dissipate in three sermons.

Jottings.

Dr. S. Bishop has moved his office from the east side of Virginia street to one of the rooms over Jim Chambers saloon on the west side of the same street.

The Baptist church will take a benefit in a few weeks. The members propose to get up a concert which will be announced in due time.

Strange what a christian spirit a young man can evince when he puts his blackened boots into the mud on a Sunday night on his way to church with his girl. But how different when he goes down town among the boys and sees the mud not only on his fine boots but also on the edges of his best pants. It is wonderful how regardless he is then of the third commandment.

In another column it will be seen that the four hearts have united as two. Those are hard times, but people will get married. There is nothing like uniting forces. We'd get married ourselves if—our stock of meal tickets were larger, etc., particularly the etc.

Prof. Jacobson's dancing class will not meet this week. Next week as usual.

To-day closes the Chinese new year, and then Chinatown will become as dull and stupid as it vilest opium smoker.

The case of Salesbury & Whitherill vs. Wm. Hoffman was argued to-day in the District Court.

The County Commissioners met today, but up to the time of our report had transacted little business. Full particulars to-morrow.

The Methodist revival service will be resumed to-night, and continued through the week, with the exception of Wednesday evening. Rev. Gray will be assisted by Revs. Jennings, Luke, Hammond and Drahms.

Wednesday evening the ladies of the Methodist Church give another of their pleasant socials. This social will be unusually interesting, more literary exercises, etc.

Harry Noyes is dangerously ill from abcess of the liver. This afternoon he was resting more comfortably than he has for some 48 hours, but it is feared that he will not recover.

LEN SAVAGE DEAD.—This morning the sudden yet expected news came that Len Savage is dead. He died yesterday morning in East Oakland, California. Len was born in Sommerset county, Maine, September, 1831, and was therefore 48 years and 5 months old. Savage had been for many years a resident of this and Storey county. He was the locator of the Savage mine, one of the rich mines of the Comstock. Len Savage was peculiarly himself; his word was as good as his bond; his friend never wanted for a favor he could give; his enemies let him alone; he was a clear-headed, resolute, honest, industrious man. No sluggards could find accommodations at his home. Clear right "up and up, sqnare dealing" was his motto. There was nothing of the shifting, vacilating character in his make up. When he resolved that a thing should be done it was done, or else its accomplishment was beyond his power. He of course had his faults, and they were like his virtues—positive. He was therefore a man whose presence was felt in a community, and hence his loss is more deeply felt than that of a negative good man. He leaves a wife and several small children.

PETITION FOR COMMUTATION.—Monday, Eebruary 11th, Gen. Clarke and Col. Davies will present to the Board of Pardons a petition having many signatures, praying the commutation of J. W. Rover's sentense to imprisonment in the State Prison for life. Rover now rests under sentence of execution, which will, unless the above named Board intervenes, be carried into effect Tuesday February 19th. There is a marked feeling in many portions of the State in favor of the commutation of Rover's sentence. We understand that Governor Bradley is in favor of the life incarceration of Rover, in fact has so expressed himself to us. The press of Humboldt and Elko counties favor the execution of Rover, but we are of the opinion that the end of justice will be subserved by his lifelong imprisonment. We are opposed to hanging anyway, especially on circumstantial evidence.

FRIGHTFUL ACCIDENT.—As the noon freight train of the V. & T. R. R. was pulling out to-day W. A. Snow, a brakeman, while in stooping over to note something which appeared out of order with his brake, or beneath the car, was violently carried by the moving train against a portion of the cattle-guard of the stock corrals near the V. & T. bridge. He was thrown to the ground, the train backed up and young Snow was picked up in a semi-conscious state and taken to room No. 10 in the Depot Hotel. He soon became wholly unconscious and was in that condition at 2:30. Dr. Bergman was at once summoned and ascertained that the nose was completely mashed, and the entire upper portion of his face badly injured. It was thought that the skull just over the eyes was fractured if not seriously broken and that the brain had received a severe concussion. At the time of our writing there was little hope of his recovery.

Later: 4 P. M.—The injured man is dying and will live but a short time.

CARD OF THANKS.

We, the undersigned, wish to tender our thanks to Mr. J. A. Brumsey, State Agent and Mr James H. Marshall, City Agent of the Home Mutual Fire Insurance Company of San Francisco, for the highly satisfactory and unprecedented manner in which the representatives of the above named Company have settled their portion of the loss which we sustained at the late fire on Frisbie's corner. WATCHES!! JEWELRY!!

ROMAINE GOLD,

SO EXTENSIVELY WORN IN PARIS, was first discovered in 1870, by the celebrated French chemist, Mons. D. De Dainge, who manufactured it into jewelry, and for five years sold it to the leading jewelers of Paris for **Solid Gold.** In 1875, when his secret became known, ten of the manufacturing jewelers established a stock company, with a capital of $10,000,000 for the purpose of manufacturing **Romaine Gold Jewelry and Watches.** With this immense capital and the aid of improved machinery, they are enabled to produce all the latest patterns of jewelry at less than one-tenth the cost of solid gold, and of a quality and color which makes it impossible even for experts to detect it from the genuine.

We have secured the exclusive agency of the United States and Canada, for the sale of all goods manufactured from this metal, and in order to introduce them in the most speedy manner, have put up assorted sample lots as given below, which we will sell **at one-tenth the retail value until January 1st, 1878.** Read the list.

SUMMONS.

IN THE DISTRICT COURT OF THE SECond Judicial District of the State of Nevada, in and for the county of Washoe. The State of Nevada sends to Hill & Oakes, Anselmo Torrelli, Luiga Dellapiga, Albert Man, G. W. Mapes and B. F. Sheldon, greeting:

You are hereby required to appear in an action commenced against you as defendants, by A. D. Sisson, W. W. Wallace and Clark Crocker, copartners, under name of Sisson, Wallace & Co., as plaintiffs, in the District Court of the Second Judicial District, in and for the county of Washoe, State of Nevada, and answer the complaint therein, within ten days after the service on you of this Summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said District, and in all other cases forty days; or judgment by default will be taken against you, according to the prayer of said complaint. The said action is brought to recover $628.78, with interest, all in U. S. gold coin, from defendants, Hill & Oakes, alleged to be due for lumber and material furnished them by the Reno Lumber Company, and to foreclose and determine a mechanics lien, claimed against lots one and two in block P, on the corner of Virginia and Second streets, in the town of Reno, county of Washoe, State of Nevada, and the frame buildings thereon. Plaintiffs allege an assignment of said defendants' lien to plaintiffs, that defendants Torrelli, Dellapiga, Man, Mapes and Sheldon, have, or claim to have, some interest in the property and that the materials furnished for the construction of the buildings aforesaid, and with the knowledge of the defendants last named, and their failure to give notice in writing by posting within three days after obtaining knowledge that they would not be responsible for such materials. Plaintiff prays judgment of foreclosure and for personal judgment against Hill & Oakes; all of which will more fully appear from the complaint, which is on file in the office of the Clerk of said court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiffs will apply to the court for the relief demanded.

SEAL In testimony whereof, I, P. B. Comstock, have hereunto set my hand and affixed the seal of said court, this 25th day of July, A. D. 1877. P. B. COMSTOCK, Clerk.
